## Ultravanish FI

### DESCRIPTION

Modern high quality, high performance synthetic base vanishing oil to give significant enhancements in tool-life, operator comfort, and surface finish. It based on reffridgerant compoatible technology in a low odour rapidly evaporating tight cut high quality solvent.

**Ultravanish FI** is a special product which can be selected depending on evaporating rate required, the prformance for fin forming enables fins of 3fpi to be formed without problem. It is a very low-odour, high performance product where good tool-life, and surface finish are preferred.

Vanish FI is RoHS compliant products and suitable for the production of electrical components made of yellow and white metals.

Our Vanishing Oils are suitable for blanking, forming, punching, and pressing of ferrous and non-ferrous metals, giving superior surface finish and tool-life. The specific grade required should be selected according to the application.

TYPICAL DATA		
	Appearance	Pale Yellow fluid
	Specific Gravity	.90
	Residue %	Nil
	Flashpoint	>63°C

<b>Advantages</b>	Low Odour
	Faster Drying
	Multi-metal
	Non Staining
	Compatible residues
