

## **TECHNICAL DATA SHEET**

### **Corrosion Inhibitor Package CG**

#### **Use**

Synthetic corrosion inhibitor package

#### **Applications**

\_ Watermix grinding fluids

#### **Advantages**

- \_ Excellent corrosion protection
- \_ Stable in hard water
- \_ Very low foaming
- \_ Superb flushing
- \_ Good fines separation
- \_ Minimal residue formation

#### **Uses**

\_ A synthetic corrosion inhibitor to form the basis of a series of high performance, multi-metal compatible, grinding fluids.

#### **Typical Product Data**

- \_ Appearance Amber / green fluid
- \_ Specific Gravity @ 20°C 1.17
- \_ Total Alkalinity % wt KOH 34
- \_ Stability @ 0°C Stable fluid  
@ 40°C Stable fluid

#### **Blend Ratio**

- \_ PCorrosion Inhibitor Package CG 50%
- \_ Good quality soft water 50%

#### **Registration**

**EC, ECL, TSCA, AICS, DSL, IECSC**

#### **Storage**

- \_ Store inside warehouse, ideally between 10°C and 30°C
- \_ Store out of direct sunlight
- \_ Shelf life of 6 months from the date of supply
- \_ Avoid water collecting on barrel top
